INDEX TO VOLUME 28

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews and Society Transactions are indexed under these headings in their alphabetical order under the letters B and S, respectively.

Abell, R.: Anaphylaxis reaction; tissue changes as observed in living tissue in rabbit, 480

Abnormalities and Deformities: See under names of organs and regions, as Ear; Esophagus; etc.

Abscess: See also under names of organs and regions, as Brain, abscess; Cerebellum, abscess; Ear, abscess; etc.
- immediate tonsillectomy or serotherapy for severe peritonsillar phlegmon, 1018
- mediastinal, following tonsillectomy, *768
- peritonsillar, treatment by tonsillectomy, 822
- pharyngeal lymphoblastoma simulating retropharyngeal abscess, *771
- retropharyngeal, 297

Adenoids, bacteremia following adenoidectomy and tonsillectomy, 455
- significance of tonsillectomy and adenoidectomy in diphtheria carriers, 823

Adenoma, carcinoma of tongue followed by cystic adenoma of thyroid, 455

Adolescence, surgical technic of bleeding nasopharyngeal fibromas of male puberty, 1018

Air Passages: See Respiratory Tract

Alcoholism, chronic, vestibular reactions in, 304

Allergy: See Anaphylaxis and Allergy

Aminobenzenesulfonamide: See Sulfanilamide and Sulfanilamide Derivatives

Amygdalectomy: See Tonsillectomy

Anaphylaxis and Allergy: See also under Asthma; Tuberculosis; etc.
- advances in field of allergy as related to otolaryngology during year 1938, *1003
- allergy of eye, ear, nose and throat, 301
- anaphylaxis reaction; tissue changes as observed in living tissue in rabbit, 480
- bronchial asthma and nasal allergy, *199
- nasal allergy, *98
- skin sensitivity in asthmatic and control subjects, 825

Anesthesia, choice and technic of anesthetics for nose and throat operations, 659
- dangers of paravertebral anesthesia of cervical plexus; experiments on cadavers, 827
- new local anesthetics in otolaryngologic practice, 142
- study of relation of Ménière's disease to neurotrophy; treatment of Ménière's disease by procaine hydrochloride block, 1024

Angina: See also Throat; Tonsils
- Vincent's infection of mouth, throat and larynx; report of case, 137

Angioma; angiomatous tumor of nasal fossae, 1020

Anisocoria: See Pupils

Anomalies: See under names of organs and regions, as Ear; Esophagus; etc.

Ansberry, M.: Auditory threshold of unpleasantness in normal and in hard of hearing subjects, *954

Anson, B. J.: Stapes, fissula ante fenestram and associated structures in man from embryo of 7 weeks to that of 21 weeks, *676

Antrum: See also Sinuses, Nasal
- metastatic hypernephroma of right frontal, ethmoid and maxillary sinuses, *994
- plastic repair after removal of extensive malignant tumors of antrum, *29, 463
- spontaneous hemorrhage into maxillary sinus, *371
- surgery; paralysis of inferior oblique muscle following Caldwell-Luc operation, *412
- tuberculosis of maxillary sinus, *987

Aphonia: See under Voice

Apparatus: See also Instruments
- efficient and practical booth for testing hearing, *1000

Appelbaum, E.: Treatment of meningitis with sulfanilamide, 833

Arachnoid, otogenic aspects of arachnoiditis, *546

Arellano, D. R.: Report on result of submitting dogs to rotation, 1036

Argyria: See Silver, toxicity

Arteries: See Embolism; Thrombosis; Vasomotor System; etc.

Aspergillus, fulminating infection of nose due to Monilia or Aspergillus; report of case, *234, 464

Asthma: See also Anaphylaxis and Allergy
- bronchial, and nasal allergy, *199
- house dust hypersensitivity in perennial asthma of childhood, 132
- skin sensitivity in asthmatic and control subjects, 825

Atelectasis: See Lungs, collapse

Atkinson, E. M.: Preoperative management of acute streptococcic mastoiditis, *10

Audiometer: See Hearing, tests

Audition: See Hearing

Auditory Organ: See Ear

Babbitt, J. A.: Symposium on new therapeutic agents as applied to otolaryngologic practice, 148

Bacteremia: See also Pneumococci; Septicemia; Streptococci; etc.
- following adenoidectomy and tonsillectomy, 455

Bacteria: See also Meningococci; Staphylococci; Streptococci; etc.
- otogenic meningitis due to Grekowitz bacillus in twins, 1017

Baker, J. P.: Suppuration of petrous pyramid; when and how to operate; report of 30 cases, *497

Ballenger, H. C.: Objective evidence of irritation of throat from hygroscopic agent in cigaret smoke, 491

Barnhill, J. F.: President's address, 462

Bell's Paralysis: See Paralysis, facial

Bertolet, J. A.: Atypical massive abscess of frontal lobe, *621

Blumenfeld, L.: Pharyngeal lymphoblastoma simulating retropharyngeal abscess, *771

Bones, Conduction: See Hearing, tests
Diseases: See Osteomyelitis

Book Reviews:
Basis of Tissue Evolution and Pathogenesis; A. A. Gray, 151
Diseases of Nose, Throat and Ear: Medical and Surgical; W. L. Ballenger and H. C. Ballenger, 494
Life of Chevalier Jackson: Autobiography; C. Jackson, 839
Method of Examining Larynx by Means of Roentgen Ray; R. Waldapfel, 495
Practical Otology; M. Levine, 495
Practical Otology, Rhinology and Laryngology; A. E. Schlanser, 661

Brain: See also Cerebellum; Meninges; etc.
abscess; clinical syndrome indicating cessation of surgical drainage from abscess of brain, 657
abscess; large encapsulated abscess of right temporal lobe following latent otitis in child; excision in 1 piece without drainage; cure, 459
abscess of temporal lobe of otitic origin cured by puncture and wide decompression, 295
abscess, ventricular communication and internal hydrocephalus as complications of, 128
abscess; vestibular disturbances of central origin; crossed areflexia and typical vestibular disharmony, 826
atypical massive abscess of frontal lobe, *621
direct signs of tumor in ordinary roentgenograms of skull, 133
Diseases: See also Mental Diseases
diseases; vertigo in diseases of brain stem, 828
disturbances in taste and smell as localizing signs in lesions of temporal lobe, 826
labyrinthine disturbances associated with tumor of cerebellum and of fourth ventricle, 1015
otogenic aspects of arachnoiditis, *546
roentgenography; encephalography with ethylene, 302
unilateral exophthalmos in neurologic conditions, 134
vertigo in brain tumors with reference to results of labyrinth examination, 126

Bredlau, E. A.: Objective tinnitus aurium, *193

Bronchi, artificial pneumothorax through piercing wound of bronchus caused by tack, 461
emphysema caused by partial compression of bronchus by tuberculous lymph nodes, 655

Bronchiectasis, analysis of 75 cases from standpoint of infection of sinuses, 478
chronic sinusitis with early bronchiectasis, 656

Bullowa, J. G. M.: Influenza with simultaneous bilateral spontaneous pneumothorax and subcutaneous emphysema; report of case with comment on mechanism of production, *388

Caldwell-Luc Operation: See Antrum, surgery

Caloric Test: See Labyrinth

Cancer: See Tumors; and under names of organs and regions, as Epiglottis; Larynx; Lymph Nodes; Palate; Pharynx; Tongue; etc.

Casselberry prize fund, 452, 649, 1012

Cellulitis: See under Orbit

Cerebellum, abscess with diffused suppurative labyrinthitis, 817
labyrinthine disturbances associated with tumor of cerebellum and of fourth ventricle, 1015

Cervical Plexus: See under Anesthesia

Choanae: See Nose

Cholesteatoma verum of right mastoid, *209

Chordoma with report of 2 cases, 486

Christian-Schüller Syndrome: See Schüller-Christian Syndrome

Cigarets: See Tobacco

Coates, G. M.: Osteoma growing from mastoid cortex, *27
Parenteral administration of certain substances in treatment of infections of upper part of respiratory tract, 145
Rhinogenic meningitis, 140

Cochlea: See Hearing; Labyrinth

Colds: See Respiratory Tract, diseases

Coma, nystagmus provoked in comatose state, 818

Connor, C. E.: Metastatic hypernephroma of right frontal, ethmoid and maxillary sinuses, *994

Council on Physical Therapy of American Medical Association, report of representatives of American Otological Society on committee for hearing aids and audiometers of, 1027

Craig, W. McK.: Bilateral acoustic neurofibromas, *404

Crowe, S. J.: Carcinoma of larynx and total laryngectomy, 464
Diagnosis and differential diagnosis of deafness, *663

Cysts: See under names of organs and regions
Dermoid: See Tumors, dermoid

Davis, W. B.: Large protruding or prolapsed ears; anatomic considerations and surgical correction, 143
Parenteral administration of certain substances in treatment of infections of upper part of respiratory tract, 145

Deafness: See also Hearing; Otitis Media; Otosclerosis
auditory threshold of unpleasantness in normal and in hard of hearing subjects, *954
chronic progressive deafness, including otosclerosis and diseases of inner ear, *780
device for protection of ear in noisy surroundings, 1017
diagnosis and differential diagnosis of, *663
eighth nerve high tone deafness from nutritional standpoint, 453
hereditary, vestibular disorders in, 653
hysterical, 818
operation on nasopharynx in treatment of chronic progressive deafness, 1031

Deafness—Continued
rationale, technic, case reports and observations of grafts in round window, 1030
study in treatment of, 1028
use of threshold and of louder sounds in clinical diagnosis and prescribing of hearing aids, 1033

Death, sudden, caused by perforation of trachea by caseous paratracheal gland, 1020

Dermatoses: See Skin, diseases

Dermoid Cyst: See Tumors, dermoid

Diathermy: See under names of diseases, organs and regions

Diphtheria, diphtheritic meningitis of otitic origin and other complications of diphtheritic otitis, 652
endonasal immunization against diphtheria with nonconcentrated diphtheria toxoid, 656
significance of tonsillectomy and adenoidectomy in diphtheria carriers, 823

Directory of otolaryngologic societies, 152, 312, 496, 662, 840, 1038

Donnelly, J. C.: New method of operation for congenital atresia of posterior nares, *112

Drainage, clinical syndrome indicating cessation of surgical drainage from abscess of brain, 657

Drugs, comments on some of relatively new drugs, 149
symposium on new therapeutic agents as applied to otolaryngologic practice, 148

Duke, W. W.: Advances in field of allergy as related to otolaryngology during year 1938, *1003

Dust, house dust hypersensitivity in perennial asthma of childhood, 132

Dwyer, J. G.: Indications for surgical treatment of suppurative meningitis, 831

Dysphemia: See Speech, defects

Dysphonia: See under Voice

Eagleton Syndrome: See Labyrinth

Ear: See also Deafness; Hearing; Labyrinth; Mastoid; etc.
abnormalities; polyotia, 1016
and tuberculosis, 653
Diseases: See Meningitis, otitic; Otitis Media; Otosclerosis; etc.
endolymph, 1037
Fistula: See under Fistula
Internal: See Labyrinth
large protruding or prolapsed ears; anatomic considerations and surgical correction, 143
malignant disease of, *916
Middle: See also Otitis Media; Vertigo, aural
middle; results of experimental feeding and injecting of quinine on middle and internal ear of guinea pig, 830
noises in ear, tinnitus and elementary, common and verbal auditory hallucinations, 128
otogenic aspects of arachnoiditis, *546
pathologic changes in late congenital syphilis, 650
pathologic structure of tumors of external auditory meatus, 654
stapes, fissula ante fenestram and associated structures in man from embryo of 7 weeks to that of 21 weeks, *676
streptococcic dermatoses of ears, 126

Ear—Continued
treatment of seborrhea of auditory canal and of chronic eczema of ear with thorium-X, 654
tympanic membrane: otogenic complications of mesotympanal perforation and suppuration of middle ear, 1017
tympanic membrane; otomicroscopy in living, 651
vestibular disturbances of central origin; crossed areflexia and typical vestibular disharmony, 826

Eczema, treatment of seborrhea of auditory canal and of chronic eczema of ear with thorium-X, 654

Electrocoagulation: See under names of organs and regions

Embolism, air, complicating pharyngeal operation, *620

Emphysema caused by partial compression of bronchus by tuberculous lymph nodes, 655
influenza with simultaneous bilateral spontaneous pneumothorax and subcutaneous emphysema; report of case with comment on mechanism of production, *388

Encephalography: See Brain, roentgenography

Endocrine Glands and nasal secretion, 1023

Epiglottis, cancer of; report of case, 467

Epistaxis: See Nose, hemorrhage

Equilibrium: See Cerebellum; Nystagmus; Posture

Erich, J. B.: Benign tumors of larynx; study of 722 cases, *841

Erysipelas, phlegmonous, as septic focus after operation on mastoid process, 1016

Esophagus, congenital deformities; roentgenologic and endoscopic study, 1025
spondylitis caused by safety pin in, 828

Ethmoid Sinus: See also Sinuses, Nasal
metastatic hypernephroma of right frontal, ethmoid and maxillary sinuses, *994
ophthalmologic sequelae in radical cure of frontoethmoid sinusitis, 131

Ethylene, encephalography with, 302

Evans, W. H.: Thrombosis of lateral sinus; survey of current opinion and records, *959

Exophthalmos, unilateral, in neurologic conditions, 134

Eyes: See also Orbit
ocular signs of thrombosis of intracranial venous sinuses, 300
ophthalmologic sequelae in radical cure of frontoethmoid sinusitis, 131
paralysis; paralysis of inferior oblique muscle following Caldwell-Luc operation, *412

Face, chronic labyrinthitis; fracture of mastoid process involving facial canal, 453
Paralysis: See Paralysis, facial
plastic repair after removal of extensive malignant tumors of antrum, *29, 463

Facial Canal: See Temporal Bone

Falsetto: See under Voice

Feeblemindedness, relation between enlarged tonsils and mental deficiency, 304

Fibroma, final results of fibroma of larynx in child of 3 years; tracheotomy; removal of laryngofissure; prolonged intubation, 470
surgical technic of bleeding nasopharyngeal fibromas of male puberty, 1018

Figi, F. A.: Plastic repair after removal of extensive malignant tumors of antrum, *29, 463

Fissula Ante Fenestram: See under Ear

Fistula, congenital dermoid cyst and fistula of dorsum of nose; report of case, *399
  labyrinthine, direction of nystagmus in presence of symptoms of, 822
  labyrinthine, enlargement of circumference of neck as symptom of, 654

Fitzhugh, W. M., Jr.: Lymphoepithelioma (Schmincke tumor), *376

Foreign Bodies, artificial pneumothorax through piercing wound of bronchus caused by tack, 461
  spondylitis caused by safety pin in esophagus, 828
